PROCEEDINGS AND DEBATES OF THE 104<sup>th</sup> CONGRESS, SECOND SESSION

Vol. 142

WASHINGTON, THURSDAY, MARCH 21, 1996

No. 40

## Senate

The Senate met at 9 a.m. and was called to order by the President pro tempore [Mr. THURMOND].

### PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious Lord, You know what is ahead today for the women and men of this Senate. Crucial issues confront them. Votes will be cast and aspects of the future of our Nation will be shaped by what is decided. And so, we say with the Psalmist:

Show me Your ways, O Lord; teach me Your paths. Lead me in Your truth and teach me, for You are the God of my salvation; on You I wait all the day.—Psalm 25:4-5.

'I delight to do Your will, O my God, and Your law is within my heart.—Psalm 40:8.

We prepare for the decisions of today by opening our minds to the inflow of Your spirit. We confess that we need Your divine intelligence to invade our thinking brains and flood us with Your light in the dimness of our limited understanding.

We praise You, Lord, that when this day comes to an end we will have the deep inner peace of knowing that You heard and answered this prayer for guidance. In the name of Him who is the Truth. Amen.

### RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The able Senator from Washington State is recognized.

### SCHEDULE

Mr. GORTON. Mr. President, for the information of our colleagues, the Senate today will immediately resume consideration of the conference report to accompany the product liability bill for a period of 3 hours of debate, equally divided.

At 12 noon there will be two consecutive rollcall votes. The first will be on the adoption of the product liability conference report, and that vote will be immediately followed by a vote on the motion to invoke cloture on the motion to proceed to Senate Resolution 227, a resolution concerning the Special Committee To Investigate Whitewater and Related Matters.

Following those votes, the Senate will resume consideration of the grazing bill, and there will be 75 minutes for debate remaining on the Bumpers amendment, amendment No. 3556, as modified. A rollcall vote will occur on or in relation to that amendment immediately upon the expiration or yielding of debate time. Other votes are expected, and a late night session is possible in order to complete action on that grazing bill.

### COMMONSENSE PRODUCT LIABILITY LEGAL REFORM ACT OF 1996—CONFERENCE REPORT

The PRESIDING OFFICER (Mr. DEWINE). Under the previous order, the Senate will now proceed to the conference report to accompany H.R. 956. The time between now and 12 noon is equally divided.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 956), a bill to establish legal standards and procedures for product liability litigation, and for other purposes, having met, after full and fair conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The Senate resumed consideration of the conference report.

The PRESIDING OFFICER. The Senator from Washington.

Mr. GORTON. Mr. President, as we proceed toward the climax of the debate on product liability and a vote on the bill at noon, I believe it appropriate to state what I think the issues in this debate truly are. The question involved in whether or not we wish to reform the product liability litigation system of this country has, I think, primarily to do with the products that are available to the American people, the rapidity with which new products are researched, developed, introduced, and marketed, and the cost of those products to the people of the United States.

In each of these cases, the closely related question, of course, is the system of justice by which people who believe that they have been wronged get a determination as to whether or not such a wrong has been committed and how much compensation should be granted when a wrong is determined.

Our present legal system serves well neither of these goals. We have, in many areas, a frequent reduction in the number of companies that are willing to engage in vitally important businesses: a reduction from something like a dozen to one, in the producers of serum for whooping cough; a reduction from 20 to 2, in the number of companies willing to produce helmets, football helmets, for players, whether professional or college or high school or otherwise.

There is a constant fear on the part of product developers that the unpredictable costs of product liability litigation, whether or not it is successful, are simply greater than any potential profits that can be gained from the development and marketing of a product. For example, Science magazine has identified three U.S. laboratories that suspended or canceled research on promising AIDS vaccines. Union Carbide funded and developed a suitcase-size kidney dialysis unit for home use. It was sold to a foreign corporation
